

Toolbase® Control AR-18S Professional

With its compact dimensions, the Toolbase® AR-18S is especially recommended for the provision of work protection items such as gloves, skin protection etc.

The individually adaptable partitions are adapted to the products to be stored and allow a high degree of storage flexibility. Supported by an optical guidance system and a sliding door, the user is only provided with the previously selected article. This means that occupational safety articles are available at all times close to their intended use.

The Toolbase® AR-18 is also ideally suited for the individual dispensing of c-parts.
