

Toolbase® Control EB-60 Professional

Sturdy plastic boxes are used for the storage of high-quality individual articles as well as inexpensive c-parts. The Toolbase® EB-60 convinces with its simplicity and universal application possibilities.

The Toolbase® ATMS NG basic module is installed on the high-quality PC with a large touch screen. Even the basic module enables permanent availability and optimum C-parts management, but can be easily extended if required thanks to our modular software structure.
