

Toolbase® Control AK-108 Professional

The specialist for single dispensing is the Toolbase® AK, the ideal storage system for non-sensitive items with compact dimensions. The Toolbase® AK manages up to 108 different articles. The prerequisite is a compact, stable outer packaging of the individual items. An intelligent push mechanism transports the selected article forwards so that it falls into the padded removal chute.

The Toolbase® ATMS NG basic module is installed on the high-quality PC with a large touch screen. Even the basic module enables permanent availability and optimum tool management, but can be easily expanded if required thanks to our modular software structure.

Size	Width (mm)	Depth (mm)	Height (mm)	Number of slots
Typ 1	105	475	30	27 slots
Typ 2	155	475	30	54 slots
Typ 3	205	475	30	27 slots

Technical Data:	
Depth	972 mm
Width	1221 mm
Height	1840 mm
Withdrawal	Single withdrawal, automatic control
Storage	108 slots
Storage Capacity	7,95 m ²
Load capacity	Max. 10 kg per slot
